Why should the intellectually rich community of learning that so many alumni cherish end with graduation? Indeed, this was an opportunity to redefine the idea of life-long learning as a life-long relationship with Integral University. To meet his vision, the Integral University Alumni Association came up to help students have access to the rich trove of resources offered by the university. It is an excellent platform to reconnect graduates to the intellectual bedrock of the University.

The concept of Integral Alumni Association has been greeted with great enthusiasm from the entire alumni community. We hope that the registration for the program exceeds our expectations as we publish the alumni newsletter, "Alumni Magazine" for our valuable alumni who are constantly making their mark in various spheres of life.

Integral University has come a long way from its origin and has expanded widely ever since it was established in 2004. Several buildings have also been added in the original campus. It can boast of illustrious teachers, past and present and equally illustrious and famous alumni who have excelled in diverse fields.

The impact of the University is something to be celebrated and shared with the University Alumni. The Alumni Association is an increasingly important part of the University itself. Its activities help shape the experience of Integral's former, current and future students. The Alumni Association, through its dedicated and enthusiastic members of the Committee, helps organize a number of activities on behalf of the alumni community. Alongside these activities, the Committee has a focus on issues on the Higher Education agenda, including student employability and career mentoring.
