PROF. S. W. AKHTAR

FOUNDER AND CHANCELLOR
INTEGRAL UNIVERSITY, LUCKNOW

Interdisciplinary approach, intellectual challenge, creative thinking and innovation have been the *raison d'être* of Integral University. Its main objectives are to ignite young minds and to untangle the complexities of life by kindling the brains with knowledge as also to assist them in acquiring a spirit of enquiry which can only be done with the power and passion of the teachers of this University. The ultimate goal of the University is therefore to deliver teaching and learning programmes deeply informed by current trends and demands of industry and market to the myriads of students from different socio-economic and cultural backgrounds thereby imparting skills for life and development. I welcome the alumni of this University with open arms whenever they feel the need to turn towards us for an all-new association, and feel happy to state that they have been a guiding light for the new generation of batches in different courses within the University.

Prof. AQUIL AHMAD
VICE-CHANCELLOR (Acting)
INTEGRAL UNIVERSITY

Prof. I. A. KHAN
REGISTRAR
INTEGRAL UNIVERSITY

I extend my wishes to the Alumni Association of Integral University for helping us in bridging a gap between the old and the new students. The Association has worked day in and day out to gather the branched-out students and form a much needed pillar of the University. Integral University recognizes the achievements of its alumni who are spread out in the world and are enlightening others through the knowledge they acquired here. The association of the University and its students begins from the day they are admitted in the University to broaden their horizons to the day they fly away from their nest in search of their livelihood. In the process of providing world class teaching-learning experience and keeping them in the loop thereafter, the relationship between them and the University has become eternal.

I am highly elated to see that the alumni of Integral University have kept their heads high and have proven that the University has succeeded in achieving its mission and vision.

Integral University has been putting endless efforts to produce global coven of intellectuals who would prove the motto of the University to the world: Inspiring Excellence. The University has been working to generate opportunities for its students by promoting networking between the current students and the alumni. Integral University Alumni Association, consisting of some distinguished faculty, has been involved in carrying out commendable tasks through years in letting the relationships flow.

The 'Alumni Magazine' is a source to spread out details of the efforts of the Association as also to bring awareness among its alumni that the University still remembers them and cherishes the years of their life they spent on the campus. We all feel proud to see that the then hatchlings are now full-grown birds who have succeeded in carving a niche for themselves in the already competitive world.

Dr. SYED NADEEM AKHTAR
DIRECTOR PLANNING & RESEARCH
INTEGRAL UNIVERSITY

The 'Alumni Magazine' of Integral University enlists the events it organizes to foster brotherhood among its alumni and present students. It also brings into the knowledge of all the news emanating from various alumni chapters. I wish to put on record the efforts of our alumni who are displaying their talents worldwide and are not hesitating in passing on their acquired knowledge to even the ones who have never been a part of this University. Our alumni are our assets whose unfailing adoration for the University has created an everlasting bond between them and us.

Integral University Alumni Association's efforts must be recognized in organizing networking opportunities for its students and alumni in assisting the students towards their pursuit of excellence.

Prof. SYED AQEEL AHMAD
DIRECTOR HRDC
INTEGRAL UNIVERSITY

In a very solicitous approach, I would like to congratulate all the alumni of Integral University for their hard work and dedication towards their significant role in respective fields to serve the country. Integral University appreciates the alumni for their whole hearted service and diligent efforts in achieving their goals and serving their alma mater. This is an occasion to commemorate our alumni the excellent technological and managerial achievements across the globe.

The alumni of IU have move worldwide as entrepreneurs, leaders and scientists and have fulfilled the vision and mission of the university by working. As a matter of immense happiness, I congratulate IUAA for the successful publication of "Alumni Magazine".

I wish all the students of the University a brilliant future and also expect that they will become a role model for the forthcoming generations.

Prof. MOHAMMED HARIS SIDDIQUI

DEAN, FACULTY OF AGRICULTURAL SCIENCE & TECHNOLOGY
ADDITIONAL DIRECTOR, DIRECTORATE OF ADMISSIONS AND
COUNSELLING HEAD, DEPARTMENT OF BIOENGINEERING,
INTEGRAL UNIVERSITY

I am extremely delighted and overwhelmed to know that Integral University Alumni Association (IUAA) is going to publish its “Alumni Annual Magazine”, which provides a source of information and highlights the achievements and accomplishments of revered alumnus. The mandate of IUAA is to provide an opportunity for its members to foster, by their own participation, those programs and undertakings which will contribute to their personal growth and overall development and to the development, prestige and advancement of the Integral University as well. IUAA is fulfilling its aim to preserve and develop solidarity and exchange between former students. Regular events, an annual Homecoming, a growing number of alumni chapters in more and more cities around the world, an intranet with forums, profiles, and job offers, an Alumni Fund for organizing various activities, and many other opportunities for participation provide added value for Integral University's alumni and the entire campus community. This has certainly given rise to a broad, multicultural, international social network based on a common foundation. I find myself lucky in contributing and giving back to the place that gave me so much. My best wishes to the Integral University Alumni Association, which is working tirelessly in reaching out to its alumni, who in fact represent the university as our brand ambassadors. My heartiest congratulations and support to the entire association lead by Dr. Salman Khan.

Prof. MONOWAR ALAM KHALID

DEAN, STUDENTS' WELFARE
INTEGRAL UNIVERSITY

I am extremely happy to know that Integral University Alumni Association (IUAA) is going to publish its “Alumni Annual Magazine”, which is equally and eagerly awaited by its Alumni and the University faculty/students. IUAA is worthy of praise for reaching out to a remarkable number of more than 26,773 of its alumni present globally and nationally through the use of social media and digital communication platforms like WhatsApp, Facebook, LinkedIn, Email and Voice Call etc. This will indeed strengthen ties between Alumni and the University and provide a platform for young students to reach out to their seniors for guidance and support. The Association has a dedicated website on the university portal, which has been created to interact with the alma mater on regular basis to inform them of various events and seek their participation through sharing of their experiences with their young colleagues. Online registration of lifetime membership has been activated through the portal in an encouraging move to the alumnus. The University administration has provided a tuition fee waiver of 25% to all the newly enrolled students who are siblings of Alumnus under the Alumni Quota. My best wishes to the Alumni Association, which strives hard to keep its commitment to reach out to its alumni, who represent the university as our ambassadors.

Dr. NILANJAN MUKHERJI
DIRECTOR – CCG & D
INTEGRAL UNIVERSITY

The Center for Career Guidance & Development (GGG&D) literally personifies its name & spirit. We firmly believe that each student is special and blessed in her / his own unique way. The CCG&D team identifies their strengths through systematic intervention & works continuously to ensure that individual student's goals are met. Preparing & exposing the students to varied opportunities in private sector, govt. sector, higher education, international options as well as entrepreneurship remains our constant endeavor.

Our Alumni has always been a source of pride & motivation for us. It feels great to note that our alumni are serving in large organizations across the world with distinction. In UAE alone, approximately 150 proud INTEGRALITES are working in middle to senior level positions. We are committed to strengthen this bond further through various connect initiatives in the years to come.

We continue to live by our motto: Creating
Possibilities Enabling Growth

Dr. SALMAN KHAN
PRESIDENT (IUAA)
INTEGRAL UNIVERSITY

Hello Integralites ,

It is an honor to greet you in this issue of Integral Alumni magazine as the president of this great association. I am humbled to be able to serve my alma mater. Our continuing success depends on many things, but one that is foundational is ensuring we have an equitable, diverse, and inclusive culture.

“I am thrilled to be coming home to my alma mater and a community committed to equity, diversity, and inclusion. I believe they are currencies for trust, and they allow all voices to be heard and respected.”

— Dr. Denise Boston

As an alumnus, I am filled with pride for the university's accomplishments. Integral University has successfully provided more than 16 years of high quality educational opportunities to students, resulting in more than 27,000 alumni who excel in various careers, becoming architects, physicians, pharmacists, physiotherapists, entrepreneurs, community leaders, teachers, professors, administrators and computer experts.

This issue contains several stories of Alumni success. You'll read about the consulting capstone option for several of our professional doctorates. It's a win-win opportunity you'll want to be a part of. You'll meet IAS, IPS, Doctorate graduates from the Integral University who are leaders in their district.

All of them, and you, make me proud to call Integral “my university.”

Mr. SHAHIDUL ISLAM
 SECRETARY (IUAA)
 INTEGRAL UNIVERSITY

Er. MOHD AHMAD
 TREASURER (IUAA)
 INTEGRAL UNIVERSITY

There are so many take-aways from Integral University which have helped me get to this station of my career. Integral University's inculcation of discipline and the culture of value based education proved to be the keys that opened up my career for me. As an alumnus, I am filled with pride for the university's accomplishments. Integral University has successfully provided more than 16 years of high quality educational opportunities to students, resulting in more than 27,000 alumni who excel in various careers, becoming architects, physicians, pharmacists, physiotherapist's, entrepreneurs, community leaders, teachers, professors, administrators and computer experts. Serving as Secretary of the Alumni Association for a number of years, it is an honor for me to continue serving on the Alumni Board, which comprises well-known community leaders who are enthusiastic and committed to the university and its students. We are proud to celebrate the achievements of our former students with the Annual Distinguished Alumni Dinner and to raise scholarship money for our current students. Each year, as we welcome new students to Integral University, we are reminded of the great legacy left behind by our wonderful alumni. As alumni secretary, it is my goal to work along with the Integral University Alumni Board of Directors to raise public awareness of the Integral University Alumni Association, to grow its membership base, to assist with development of fundraising opportunities, and to promote exciting activities and events for alumni in the Country area and beyond.

Integral University has come a long way from origin and has expended widely ever since it was established in 2004. Several buildings have also been added in the main campus. it can boast of prestigious faculty members, teachers and our eminent alumni who have excelled in diverse fields across the globe.

The Impact of the university is something to be cherished and shared with the university alumni. The alumni association is an increasingly important part of the university itself. Its activities help to shape the experience of integral's former as well as current and future students. The alumni Association, through its dedicated and enthusiastic members of the committee, organize a number of alumni activities and visit program in their respected departments as well as university level. Together with these activities, the committee members focuses on issues of higher education including student placement and carrier monitoring.

CAMPUS NEWS

Orientation Programme – 2019

John Dewey famously said “Education is not preparation for life; education is life itself.”

Integral Campus cordially welcomed their newest scholars and their family members in Integral University, Lucknow by organizing a successful orientation program. The welcome address was given by Professor M.A. Khalid, Dean, Students' Welfare who extended his co-operation and briefly mentioned about the infrastructure and various amenities in the University available to the students and the focus on academic excellence. Making students comfortable and acquainted with the University, the honorable Chancellor, Prof. Waseem Akhtar blessed the students with a bright future and a memorable time during their University stay.

Dr. Mohd Haris Siddiqui, Additional Director (Directorate of Admission & Counselling) reinforced the messages by all the dignitaries and in his closing remarks to the orientation ceremony congratulated the Integralites on their newly embarked journey.

Prof. Tahseen Usmani, Proctor, Integral University, embraced the audience with the assurance of warmth and considerate administration but with a No-tolerance policy over indulging in any foul or unlawful activities in the campus. He confirmed that the Integral Campus is strictly Ragging Free where seniors and faculties share a great bond and always lend a helping hand to each other. Dr. Nilanjan Mukherji, Director, CCG&D, Integral University extended his warmth and support to the newcomers and emphasized the significance of a goal in a student's life. Our Chief Guest, Dr. Brijendra Singh, DG, U.P. Council of Agricultural Research, motivated the newcomers with his zestful tone and interaction. He also stressed the role of "Attitude" in success and said that positivity and confidence backed by good education is the key to a fulfilling future. Guest speakers Prof. Alok Dhawan, Director, CSIR-IITR Lko, and Mr. Mohsin Khan (Alumnus Integral University), Dy. SP & CO. Taj Circle- Agra, Govt. of Uttar Pradesh has guided and inspired the new scholars to shape up their University years in the best ways possible.

INTEGRAL CANVASES THE IMPORTANCE OF CREATIVITY IN ENTREPRENEURSHIP

“All our Dreams can come true, if we have the courage to pursue them.”

Mr. ABDULLAH HASSAN, CEO & CO FOUNDER

The world belongs to those who are ready to Walk the Talk and take the next step in their journey and this is the perfect saying if we talk about our Guest of Honour Mr. Abdullah Hassan, CEO & Co Founder Dhow Capital, Kuwait. Mr. Abdullah Hassan has 25+ years experience with large Multinational companies like Intel Capital (USA), Sony (Japan), Aramex (UAE), Horizon Ventures (Hongkong) etc. He has delivered several lectures, workshops and sessions to students and professionals in his efforts to change the dynamics of modern day economic opportunities.

The welcome address was given by Dr. Nilanjan Mukherji, Director, CCG& D, Integral University who enlightened the audience on Creativity and Entrepreneurship.

“Creativity is not just about coming up with the ideas. It is about being able to adapt to new circumstances, navigate uncertainty and find solutions as problems arise”, remarked Dr Nilanjan Mukherji.

Mr. Abdullah Hassan, CEO & Co Founder, Dhow Capital, Kuwait, the guest of honour enlightened the students present at the auditorium with his provoking thoughts.

He said that we need to have an environment which inspire and motivate us to get success in life. “You have time to build your dreams, nothing happens in a day but everything happens daily”, he said.

Dr. Syed Nadeem Akhtar (Director of Planning & Research) also graced the occasion with his presence.

The prime objective of the seminar was significantly making the students understand the importance of entrepreneurship for sustainable development in the society and to develop a plan to make the changes necessary to pursue an entrepreneurial career. Through this whole session, students got a lot of knowledge which will be highly beneficial for their future.

At the end, Dr. Syed Nadeem Akhtar (Director Planning & Research) presented the memento to Mr. Abdullah Hassan and Dr. Nilanjan Mukherji articulated the vote of thanks.

STRENGTHENING OUR BOND : ALUMNI REVISITING THEIR ALMA MATER

SUBJECT MATTER EXPERT / DATABASE LEAD IN IBM BANGALORE

One of the most interesting stages in life that gives you an opportunity to explore is the college phase. I joined the institute in 1998-2002 batch in Computer Science & Engg. branch. The entire faculty and other members of this institution were very cooperative. The college mates and all Juniors were superb and the time we cherished together is memorable. There was great deal of efforts into studies along with all our energy into unforgettable events and activities. It has been years now but still whenever time permits I do visit the campus. Being from the very first batch and among initial enrollers we witnessed the grooming and growth of the institute every single day. Earlier it was Institute of Integral Technology and now it is recognized as "Integral University".

My special thanks to the professors who are helping students to becoming achievers in corporate world. To name a few and my special thanks to some of professors are Rizwan Beg Sir, Kavita Mam, Bharati Sir, Shamshi Sir, Prince Shueb Sir for their hardwork, guidance, support and the immense knowledge. I am thankful to the Alumni Association which has setup a platform to connect alumni together. Keep up the good work. My message to current students - "First of all Respect your faculties and utilize their knowledge and guidance. The academics make you technically sound and nurture your talent. Remember this is the phase when you make yourself smart competitor to achieve the best in your career. You need to come out of comfort zone, push the boundaries and rediscover yourselves. Develop critical thinking, teamwork and communication skills. One day many of you have moved to different cities and countries for your work and your higher education. I am certain about the fact that you all will be performing your best whatever field you are in. Stay connected. At last enjoy your college life as one day you will be remembering these golden days with a smile. I wish you all the luck and success for your future!!!"

Being from the first batch, we didn't have much to imitate, but our faculty put so much heart into us to have a very solid foundation. Our dean that time Prof. DC Thaper, used to emphasize always that my students are second to none. And this was not only said but also believed by the faculty and administration. I owe a great degree to my very very committed faculty members like Thaper sir, Zia Sir, Sanjeev sir, Arun Sir and also wonderful college management. I believe that institution would maintain its committedness to quality after each passing year, and it's students would always believe that they are second to none. I wish all of you very best for your future endeavors.

As an alumni of Integral University (IU), I feel like I've spent a lot of time looking back, and for good reason. What an exciting time I have spent at IU during my B Tech in the year 2004-2008. Whenever, I closed my eyes and remember IU the first thing comes to my mind is Pankaj Chai Dhaaba, attending early morning classes with friends, bunking classes, and my legendary teachers such as Dr Rizwan Beg, Alok Joshi, Ravi Prakash, Halima Sadia. Other things, which I missed most is completing assignments a day before the deadline. Recalling on the good, and even the bad times, is a beautiful, often nostalgic experience that leads to hugs and a lot of tissues. I am proud that I am from IU and leaving a global impression in Western World Academia and Research industry through my research work in Artificial Intelligence and Machine Learning. But something Integral has given me is the ability to look forward, something that used to scare me, and tackle the challenges. In fact, cracking a job has always been a real fear for me because at that time I love Artificial Intelligence and Machine Learning. On the other hand, industry needs software developers who can work based on the requirements for the industry. I like having a plan and knowing what the future holds, but IU taught me that sometimes the best surprises in life, failing to sit in campus placement drives made me a solid contender after being graduated from

Dr. MIRZA AZIM BEG

SCIENTIST THE HIMALAYA DRUG COMPANY

It's my pleasure to thank my Alma Mater, Integral University Lucknow. It has been approximately 10 years when I left my University (M.Sc. Biotechnology 2007-2009) still I feel that I am a part of this superb organization which has given me glorious profession in my field of Life science. I would like to thank my respected faculties who kept me encouraging during my campus drive and their support, direction that today I am here at The Himalaya Drug Company last 10 year, Applying my Thoughts. The Himalaya Drug Company is recognized well-known world fame Ayurvedic Company since 1930 having its mission to make quality Ayurvedic products. The company has its own registration in about 98 countries of the world.

To my dear, every junior should get opportunity to full fill your dreams as I got. I will say that have faith in yourself and keep practicing to succeed in your life. I wish that Integral University will produce a large number of promising, capable and intelligent scholars who will have the power to change the world.

B.Tech. ECE 2006-2010

INDIAN POLICE SERVICE, U.P. CADRE - 2018

I take this opportunity to express my gratitude to my Alma mater. Its indeed a privilege that my profile is selected to be published in annual alumni magazine. To my juniors, I would just suggest two things-

Quoting faiz Ahmad faiz " Dil na umeed to nahi, nakaam hi to hai, Lambi hai gham ki shaam, lekin shaam hi to hai" Whenever you face hardships, never lose your heart. It may take long to reach your goal, but with your efforts you will definitely reach it.

When you become successful which you will, never forget your roots.

When I was in college, I was very uncertain whether I want to go for a job or m.b.a or m.tech. In my final year, I made up my mind that I will be going for civil services, and then the journey was long, tough and many a times demoralizing, but due to constant support of my parents and blessings of my friends and elders, I was able to make it. Make good friends in college, whom you can trust upon and who have the audacity to correct you when you go astray. Fortunately I had wonderful friends in college who made my life easy. I would also thank my professors Dr Hasan Saeed, Prof Deependra Pandey, Prof K K Singh who were constant source of support in my college days.

Thank you Integral shaping my personality & making me what I am today.

It has been around eight years when I left Integral University but still I feel that I am a part of this wonderful organization which has given me glorious career in Mechanical Engineering. It was the place where I learnt, explored and experienced the power of knowledge. Whatever I am, whoever I am and wherever do I stand now, is all because of this institute. Learning techniques, practical approach, practice labs, workshop and wonderful teachers, make Integral University powerful day by day. Being a part of India's top ten Construction company right now, I am working as a Senior Engineer- (MEP Project) in Jaypee Group in Noida. I will continue to enhancing my area of knowledge to reach my professional goals. All the credit for my success goes to Integral University and my family as they had strong believes in me and my dreams. I hope that Integral University will produce a large number of eligible and intelligent Engineers who will have the power to change the world. It's my pleasure to thank my Alma Mater, Integral University and our respected faculties. It's the result of their support and guidance that today I am here at Jaypee Group. I would like to owe my sincere gratitude to our teachers, who kept me encouraging throughout my campus drive. I would advice all my dear juniors, to have faith in themselves and keep practicing to succeed in life.

Through this forum, I would like to address the younger generation who are going to be the torch-bearers in the coming future. Restricting yourself to the bookish knowledge is not enough in this highly competitive world. The market is changing at a pace which could never have been imagined in the past. In this world of technical advancements, keep yourself acquainted with the latest technologies evolving in your field, and at the same time developing your communication skills is equally important. Try to live by the saying "If you can't explain it, you don't understand it".

The quote of Kamad Kajouri "Do not give them a candle to light the way, teach them how to make fire instead" crops up in my mind as I hear the name of my Alma Mater. This is what exactly Integral University did to me, It taught me how to make fire. It

was the place where I learnt explored and experienced the power of knowledge. Whatever I am and wherever I stand today on the stage of life is all because of learning techniques, practical approach and wonderful teachers that this organization offers. I wish that every student should get the opportunity to fulfill his/her dreams as I got. To all the budding engineers of Integral I would like to say that what all matters to the outer world is knowledge so utilize your four years of engineering thoroughly and enhance your knowledge base as much as you can. I believe that my emotions towards you all could be better expressed in the words of the father of American literature Mr. Mark Twain, "Twenty years from now you will be more disappointed by the things that you didn't do than by the ones you did do. So throw off the bowlines. Sail away from the safe harbor. Catch the trade winds in your sail. Explore. Dream. Discover." Last but not the least I hope that Integral University keeps on producing a large number of eligible and intelligent engineers as it does.

I feel proud to be an alumnus of Integral University. I spent around 11 years of my life in the University. What I found particularly distinctive at IU is not only the diverse, experienced, and well educated faculty members, but the role they play as your support system. They nurture each student individually not only on an academic level, but also on a personal level. Professors show high levels of tolerance, scientific knowledge and empathy. I shall forever be grateful for Department of Biosciences and Bioengineering faculty for their continuous support and outstanding mentorship. There are many things to say about the goodness of IU, good infrastructure for labs, lecture rooms and outstanding library and many more. To sum up, I thank all the staff members and efforts that were put into the 11 years that I was there. I've left the University with so many fond memories and would love to come back to visit sometimes. Finally, I would like to say thank to Dr. Salman Khan, President IUAA that he contacted me and gave me the opportunity to share my experience about my Alma mater. The association is doing a good job and my best wishes to the association.

Students, You are a powerful resource for the university both today and in the future. Thousands of people like you and me have used degrees to improve our lives and build a brighter future. Whether you went on to earn a higher degree, get a better job, or enrich your life, you are living proof of education power! As far as academics is considered, it finally comes down to YOU! It's your choice whether to take advantage of your independence, enjoy life out of limits and eventually flunk in the exams or work hard and pass with flying colors. Let me tell you, there are a lot of hard-workers here, who really want to learn, score well and shape their careers. Talking about my Integral University, it is the place where I entered after the school life. The time spent here was memorable academically and personally. The relationship between faculty and student is very cordial. I cherish those memories.

One of the most interesting stage in life that gives you an opportunity to explore is University life. It was the best journey of my life. Whenever I remember my university days, I get tears in my eyes. Those three years were like three days of my life which completed very fast. My experience at Integral University has taught me fundamental things like- life is unpredictable. It might be good, it might be bad, it might be weird but it is a perfect blend of joy and hardship. You meet different people and interact with them. You learn about their culture and grow as a good person. Environment of Integral University was very nice just like a family. The support of the faculty members not only helped me to score good marks, but also helped me to overcome the flaws for being a good human being. I am thankful to alumni association of Integral university for contacting us and keeping us updated about the progress, events and activities happening in Integral University. Without them, it will be very difficult to get any information about the University's progress.

I am very grateful to Integral University for being a significant part of my foundation which helped me reach where I am today. Currently I am working at the Centre for Science and Environment in New Delhi as a Returning Expert under Centre for International Migration and Development after finishing my masters in Hamburg, Germany. The five years I spent at Integral University played a big role in my journey of becoming an architect who gradually turned me towards becoming an environmentalist. The seeds of my current interest were sown during these five years. The experience at the University not only enlightened me academically but also helped me grow as a person. All the teachers and staff of the department have been a source of learning about something or the other. I appreciate and respect all of them who have contributed and are continuing to do that to take the University to new heights.

It has been eleven years since I first entered the IU; and have proudly been a witness to the incredible progress made by my alma mater, over the years. Integral University has highly accomplished Professors, Teachers and world-class learning infrastructure. Many of my teachers are still there, still passionate about what they are doing, honing and building students' lives. I will always be grateful to my teachers. Furthermore, I would request IUAA to reach out to Alumni in major cities and facilitate them to start IUAA Chapters. It will offer the opportunity to stay involved and connect to the fellow alumnus. It will also help them easily form their own network to reach and engage with IUAA Officials, University and future alumni. Advice for students & future alumni: Don't settle for what you already know. Keep exploring, dreaming and asking why. Believe in the power of your ideas, imagination and hard work and make the world a better place.

The memories always get fresh while interacting with you all alumni people. My college days are unforgettable and in fact those days are the most happiest and fruitful days in my life. I think everybody was missing the campus life because each and every moment was full of joyful life in the campus. Each day began with a new joyful journey and ended with a new experience. From Fresher's to Farewell party, time just flew. From junior to senior and finally to alumni the 'journey' was very pleasant. It's always the journey that elates us and takes us towards our destination. I enjoyed my college life as much as I can and good memories are still lingering in my heart. Discussing the hot topics in cold weather; short naps during the class; teasing friends; last moment exam preparations; birthday celebrations; scolding from hostel warden; fear of failures in exam; eagerly waiting for cultural programs; future planning and above all the passion to become Engineer one day. We are always trying hard for making our college proud on us by our achievements and heading towards setting a milestone.

It is a fast-moving world out there. It is interesting and as well as daunting. You have the incredible privilege to face it as part of an extraordinary community – but also the ability to shape it. Make this privilege count: make the most out of every interaction, every new challenge, and every pitfall. And make sure you never get to say: „I did not dream big enough”. Enrich your present with your efforts full of best shots to make your past memorable and cherishable.

I wish all good luck for their bright future.

It's really hard to believe that it's been over four years that, I graduated from Integral University. I completed my PhD from the department of Biosciences, Integral University in 2014. It was a wonderful journey of around 7 years, which I spent them.

The memories of my journey, since entering the University as the first registered student and that too in the first batch of MSc (Bioinformatics) are still in my eyes. The time which I spent at Integral University helped me become who I am today. I am highly grateful to my alma mater. When I had the opportunity to write a message for the annual bulletin of Integral University Alumni Association, I didn't want to turn it down. I am really happy to know the growth of University in many ways and I would say that it's really very exciting to see the upcoming various new opportunities for current and prospective students. As a proud alumnus, I wish to stay connected with my alma mater and encourage and motivate the current young generation pursuing their career at the University. Finally I would like to say, that I owe everything to my alma mater and I am very much proud to be a part of Integral University.

I've spent six years of my youth in Integral University and I feel nothing but honor to be an alumnus of such a prestigious academic marvel. This place has not only taught me the syllabus of my course but has also helped to carve me into a better version of myself. I had been presented with numerous opportunities of all kinds here, which when I put into the best use helped me to channelize my potential in the best suited direction. My job role leads me to visit colleges and universities of the entire state, it was then that I was able to compare that the things that Integral University provides its students, no other institute does- the infrastructure, discipline, co-curricular activities, placements and exposure have raised the bar not only for the institutes of the state but of the entire north region of the country.

**RESEARCH STUDENT, INSTITUTE OF MOLECULAR BIOLOGY
ACADEMIA SINICA, TAIPEI, TAIWAN**

Fellow alumni, future alumni, prospective alumni, friends and visitors, It is a great pleasure to write a message on this platform of the University. I chose graduate and post graduate Biotechnology program from the university because it is one of the excellent graduate courses in the state. The faculty has been committed and extremely supportive of me, pushing my initiative through the right channels. This program has opened the door for me to a new set of opportunities I would not have had access to them without these experiences.

B.Tech. CSE 2011-15
Chief Executive Officer- Flyaway Corporation

In a world of Profit-driven business, we at Flyaway work following a customer driven business model. Back in 2015 Flyaway was just an idea, an idea of building an enterprise that will not only provide a hassle free and cost-effective IT service but also providing our customers with an unmatched Quality Service. With this idea, we started and worked our way bit by bit to make this idea a reality.

F M Traders is a one stop solution for your entire requirement to avail a huge assortment of pipes, elbow, valves, carbon steel, alloy steel, Stainless Steel Pipe Fittings, Forge Fittings, Flanges, HVAC and FIRE products. Our company is expertise in producing trust worth supplying systems. All of the business operations are look aftered by our ceo who has always been the major force behind our marvel growth. It is because of this unrivaled business understanding and business mission practices, we had gained huge client base across domestic market.
