EDITORIAL

As you hold this edition in your hands, you become part of a continuing conversation that transcends time and distance. This magazine serves as a living chronicle of our shared journey a platform where aspirations find expression and experiences create meaningful connections. It stands as a tribute to the diverse paths you've forged and the new horizons you continue to explore across the globe.

Within these pages, you'll discover voices from different corners of the world each story carrying its own distinctive rhythm of ambition, perseverance, and purpose. From innovative startups to community initiatives, from research breakthroughs to creative expressions, your collective achievements paint a vibrant picture of our community's impact. These narratives not only celebrate individual accomplishments but also weave together the rich tapestry of our shared identity.

May this publication serve as both a mirror and a window reflecting your own journey while offering glimpses into the inspiring endeavors of your fellow alumni. Let it be a source of renewal and reconnection, inviting you to pause, engage, and draw strength from this network built on mutual support and shared values. Whether you're leading organizations, nurturing communities, or pioneering new fields, your presence remains an essential thread in our collective story.

We extend our sincere gratitude for your continued participation in this ever-evolving narrative. Your experiences enrich our community, your successes inspire future generations, and your connection to Integral University continues to shape our collective legacy. Together, we move forward—learning, achieving, and creating a brighter tomorrow.

Hon'ble Chancellor's Message

Dear Beloved Alumni,

As this new edition of our alumni magazine arrives in your hands, a gentle joy and deep pride fill my heart. Each one of you, scattered across the globe, is like a single, steady light. Together, you form a brilliant constellation that illuminates the legacy of Integral University, guiding current students and showcasing the power of an education built on strong values.

Your journeys remind me of a quiet river that begins its course within our academic grounds and now flows gracefully into the vast ocean of the world. You carry with you the essence of our university not merely as a memory, but as a living, breathing force that you apply in your professions and communities. The respect you command and the integrity with which you lead are the truest measures of our shared success.

With each milestone, I am reminded of the words of Dr. A.P.J. Abdul Kalam:

"Dream, dream, dream. Dreams transform into thoughts and thoughts result in action."

May your dreams continue to illuminate your path and ignite the hearts of those around you.

Turning the pages of this magazine, I hope you find familiar echoes and new inspirations. Your story is our story, and each chapter you write adds to the luminous narrative of Integral University.

With immense warmth and pride,

Prof. S. W. Akhtar
Chancellor & Founder
Integral University

Hon'ble Pro-Chancellor's Message

As the gentle breeze of a new season graces our campus, I find myself thinking of each of you with profound affection and pride. This edition of KALEIDOSCOPE arrives as a tender reminder of the beautiful bonds we continue to share bonds that time and distance have only made more precious.

Here at Integral University, we have always believed that education is not merely about acquiring knowledge, but about cultivating hearts. Our halls have witnessed countless moments of discovery, not just of academic truths, but of the compassion, empathy, and shared humanity that connect us all. The diverse voices that grace our campus from over thirty-three countries create a symphony of understanding that resonates long after students graduate.

Your journeys, my dear friends, reflect this beautiful truth. Like the quiet transformation of dawn's first glow into the full radiance of day, your Integral education has blossomed within you, revealing its beauty gradually through your wisdom, actions, and impact on the world. The dignity with which you navigate your paths speaks volumes about the spirit of this institution.

I wish to offer my sincere gratitude to the Alumni Welfare Association, whose gentle dedication makes this publication possible. Through their efforts, KALEIDOSCOPE becomes a cherished conversation among friends a way for us to stay connected in spirit and purpose.

The immortal bard Rabindranath Tagore once expressed, "The butterfly counts not months but moments, and has time enough." In these simple yet profound words, we are reminded to cherish each connection, each memory, and each opportunity to make a difference in the lives of others. As you hold this magazine, may it bring a smile to your face and warmth to your heart. May you feel, across the miles, the enduring affection of your alma mater a place that will always be your home, and a community that will always cherish you. With deepest warmth and blessings,

Dr. Syed Nadeem Akhtar
Fulbright-Nehru Fellow, F.IOD
Pro-Chancellor
Integral University

Hon'ble Addl. Pro-Chancellor 's Message

Dear Alumni,

Warm greetings to our ever-growing Integral family!

It gives me immense pleasure to connect with you through this edition of the Alumni Magazine, a space that reflects not just memories of campus life, but the extraordinary journeys of our graduates who continue to inspire change across the world.

Each alumnus of Integral University carries with them the legacy of curiosity, compassion, and commitment to excellence that defines our institution. Whether leading research, building businesses, advancing healthcare, or creating social impact, our alumni embody the spirit of innovation and integrity that Integral University stands for.

At the heart of this spirit lies the Integral Startups Foundation-Centre for Incubation & Entrepreneurship Development (ISF-CIED), the Incubation Centre of Integral University recognized by Government of Uttar Pradesh. ISF-CIED has emerged as a driving force in fostering entrepreneurship among students, alumni, and the larger community alike. With over a hundred startups and grassroots innovators being nurtured under its wing, it continues to transform ideas into enterprises that contribute to both economic growth and societal well-being.

As members of our alumni community, you remain a vital part of this ecosystem-as mentors, collaborators, investors, and innovators. We invite you to reconnect with ISF-CIED, share your experiences, guide young entrepreneurs, and perhaps even return as founders of your next big idea. The doors of Integral University are always open for its family, no matter where your journey has taken you.

The world today needs ethical leaders and creative problem-solvers more than ever before. Our alumni, grounded in knowledge and driven by purpose, are uniquely positioned to meet that call. Together, let us continue to build a network that not only celebrates success but also nurtures innovation and gives back to the community that shaped us.

Wishing you continued success, fulfillment, and the courage to keep innovating and inspiring.

Dr. Nida Fatima
Additional Pro-Chancellor
Executive Director – (ISF-CIED)
Integral University, Lucknow

Hon'ble Addl. Pro-Chancellor 's Message

It is indeed a moment of pride and joy to witness the release of the Annual Alumni Magazine, KALEIDOSCOPE-25, an endeavor that beautifully captures the spirit of togetherness and the achievements of our alumni community.

The alumni of Integral University are our true ambassadors, carrying forward the vision and values of their alma mater into every sphere of life. Their accomplishments across professions, industries, and communities are a source of great inspiration for our students and faculty alike. Each success story reflects the University's commitment to excellence in education and holistic development.

This year has been truly exceptional for our healthcare institutions. The Integral Institute of Medical Sciences & Research (IIMSR), the Integral Institute of Nursing Sciences & Research (IINSR), and the Integral Institute of Allied Health Sciences & Research (IIAHSR) have significantly increased their student intake, marking a new chapter in their growth and outreach. This progress is a testament to the University's continuous efforts to expand opportunities, enhance academic excellence, and contribute meaningfully to the healthcare sector.

KALEIDOSCOPE is not just a magazine it is a mirror of memories, experiences, and aspirations. It bridges the past with the present and strengthens the bond of belonging among alumni, faculty, and students. This platform allows us to celebrate milestones, share knowledge, and reaffirm our collective resolve to contribute positively to society.

I deeply appreciate the Alumni Welfare Association for its continuous efforts in nurturing this invaluable connection between the University and its alumni network. The editorial team and contributors deserve special mention for their dedication in curating such a meaningful publication year after year.

I firmly believe that KALEIDOSCOPE-25 will continue to inspire our alumni to remain engaged with the University, to support its vision, and to be a guiding light for the generations to come. Let this magazine serve as a reminder that no matter where life takes us, we remain united by the common thread of Integral University.

With best wishes for the continued success of our alumni and for the growth of this noble association.

Warm regards,

Mr. Syed M. Fauzan Akhtar
Addl. Pro Chancellor
Integral University, Lucknow

Hon'ble **Addl. Pro-Chancellor** 's Message

As you reflect on your journey, we want to celebrate the remarkable achievements you've made since walking through the gates of Integral University. Your success stories from ground breaking innovations to leadership roles across various industries are a testament to the dedication you showed during your time here. You embody the very best of Integral, and we are incredibly proud to see the positive impact you're having on the world.

We're particularly excited to update you on the flourishing legacy of the Integral Business School (IBS). IBS remains a vibrant center of learning, continually nurturing future leaders with a perfect blend of academic rigor and real-world insight. To ensure our students are equipped for the global economy, we have forged exciting new collaborations with industry partners and international institutions. These partnerships are strengthening our curriculum, providing unparalleled experiential learning opportunities, and solidifying our position as a premier institution for business education.

Now, more than ever, we recognize the invaluable role our alumni play in our continuing evolution. We cordially invite you to actively participate in our global initiatives. Whether through mentorship programs, serving as guest speakers, offering internships, or collaborating on international research projects, your experience and insights are crucial for shaping the next generation of Integral leaders. Your involvement helps bridge the gap between academia and industry, enriching the educational experience for all.

May this edition of KALEIDOSCOPE '25, our newsletter/magazine reconnect you with cherished memories of your time at Integral University. We hope it reminds you of the deep bonds you formed, the lessons you learned, and the foundation that launched your career.

Please know that you remain an essential part of our continuing story, we look forward to celebrate your ongoing successes and welcoming you back to the campus soon.

With warm regards and best wishes,

Mr. Syed Adnan Akhtar
Addl. Pro-Chancellor
Integral University

Hon'ble Vice-Chancellor's Message

Dear Alumni,

It gives me immense pleasure to extend my greetings to all our esteemed alumni through this 8th edition of KALEIDOSCOPE. Each passing year adds a new dimension to Integral University's pursuit of excellence, and this milestone edition reflects our commitment to academic growth, innovation, and community engagement.

The past year has been marked by significant achievements that highlight our institutional progress. Integral University has been awarded the QS I-Gauge Diamond Rating, ranked among the Top 151–200 Universities in India by NIRF-2024, and has maintained its esteemed NAAC 'A+' Grade accreditation. Honors such as the Best University for Promoting Industry–Academia Interface and the International Green University Award further confirm our commitment to sustainable practices, research excellence, and employability-focused education.

Our alumni remain our greatest strength and source of pride. Through your achievements and leadership across industries, academia, and public service, you uphold the values of diligence, integrity, and social commitment that define Integral University. We envision your deeper engagement in mentoring our students, providing career guidance, corporate training, and professional networking opportunities that will prepare them for global challenges.

I extend my heartfelt appreciation to the Alumni Welfare Association and the Editorial Team of KALEIDOSCOPE for their dedicated efforts in bringing this inspiring edition to life. I wish its pages serve as a reminder of the legacy we share, one of knowledge, innovation, and compassion, and may it continue to connect us as one family, united by the spirit of Integral University.

I sincerely appreciate the efforts of the Alumni Welfare Association and the Editorial Team of KALEIDOSCOPE for producing this meaningful edition, which beautifully captures the essence of Integral University's spirit and progress. May it continue to serve as a bridge between the alma mater and its ever-growing family across the world. With best wishes and blessings,

Prof. Javed Musarrat
Vice Chancellor,
Integral University

From the Desk of Registrar's

It is with great delight and heartfelt pride that I present to you the latest edition of our Alumni Magazine, KALEIDOSCOPE-25. Like the ever-shifting patterns of a KALEIDOSCOPE, this publication beautifully captures the vibrant spirit, diversity, and brilliance of our alumni community. Each story within these pages mirrors the light of achievement, resilience, and purpose that continues to illuminate the name of Integral University.

Our alumni, spread across continents, stand as living embodiments of our university's vision individuals who transform knowledge into action and dreams into milestones. They are innovators, leaders, and changemakers whose endeavors shape industries, uplift communities, and redefine excellence. Their journeys remind us that true education is not confined to classrooms but resonates in every step taken to create a meaningful impact on the world.

KALEIDOSCOPE-25 is not merely a magazine; it is a tapestry of memories and aspirations a bridge between yesterday's dreams and tomorrow's possibilities. Through its pages, we celebrate not only success stories but also the enduring connection that binds every Integralite to this institution, no matter how far life's journey takes them.

I extend my deepest appreciation to the editorial team for their tireless efforts and creative spirit in curating this wonderful edition. Their dedication ensures that each issue continues to inspire, engage, and rekindle the sense of belonging among our alumni.

As we turn the pages of KALEIDOSCOPE-25, may we be reminded of the timeless truth "The roots of education are deep, but the branches of its impact reach far and wide." May this edition inspire every reader to reconnect with their alma mater, to celebrate how far we have come, and to envision how much farther we can go together. For every alumnus carries a spark of Integral within, and when these sparks come together, they form a radiant light that continues to guide the University toward greater heights.

Prof. Mohammed Haris Siddiqui
Registrar
Proud alumnus of IU Batch 2008

From the Desk of the Controller of Examinations

It is my distinct pleasure to extend heartfelt congratulations on the publication of KALEIDOSCOPE-25, a magazine that beautifully encapsulates the vibrant achievements and inspiring journeys of our distinguished alumni.

This edition stands as a celebration of the enduring bond that connects every alumnus of Integral University. Our institution has long been a beacon of academic excellence, nurturing minds, inspiring innovation, and shaping countless futures. KALEIDOSCOPE-25 is a reflection of that collective journey a tribute to our shared values, accomplishments, and aspirations.

The Faculty of Science remains steadfast in its commitment to fostering innovation, research, and intellectual growth. Our alumni continue to exemplify these ideals, excelling across disciplines and making their mark both nationally and globally. Their remarkable achievements stand as a testament to the strong foundation built at Integral University and to the transformative power of quality education.

KALEIDOSCOPE-25 eloquently captures their success stories narratives of perseverance, leadership, and service to society. Our alumni not only break new ground in their professions but also serve as enduring sources of inspiration for current and future students.

I extend sincere appreciation to the Alumni Welfare Association for spearheading this commendable initiative and for providing a meaningful platform to celebrate our alumni community. Through such endeavors, we strengthen our shared legacy and reaffirm the spirit of belonging that defines Integral University.

I invite all readers to explore KALEIDOSCOPE-25 with pride to reflect on your own journey, celebrate the achievements of your peers, and embrace the limitless potential that lies ahead. Thank you for being an integral part of our university's story. Together, we remain connected to the past, present, and future of Integral University.

Warm regards,

Prof. Abdul Rahman Khan
Controller of Examinations

From the Desk of the Director HRDC

With heartfelt appreciation and pride, I reach out to you through our Alumni Magazine, KALEIDOSCOPE. As Director of the Human Resource Development Centre, I have witnessed with admiration the remarkable paths our alumni have taken. You stand as proud reflections of the knowledge, discipline, and values nurtured at Integral University. Your professional triumphs and contributions to society speak volumes about your dedication and excellence.

You are the embodiments of inspiring excellence for our institution. Your accomplishments energize today's students, offering them confidence and direction. I encourage you to remain engaged with your alma mater and with one another sharing insights, guiding younger peers, and sustaining the bonds that began here.

We deeply appreciate your loyalty and achievements. You are our pride, and your journey assures us that even greater milestones await you. May you continue to rise, innovate, and inspire.

Prof. Syed Aqeel Ahmad
Director, HRDC
Integral University

President AWAIU

Welcome to KALEIDOSCOPE '25, a vibrant testament to the enduring spirit and ever-evolving journey of our Integral University alumni community.

If each alumna and alumnus is a singular shard of colored glass, then this magazine is the chamber where we come together. With every turn of the year, new patterns emerge bold, unexpected, and brilliantly interconnected. This edition captures that dynamic evolution, showcasing how your journeys have unfolded in the past year, creating a collective picture of innovation, resilience, and impact.

The stories you will find in these pages are more than just milestones; they are a living dialogue between our past and our future. They are the research that redefines possibilities, the enterprises that build economies, and the service that transforms communities. Each narrative strengthens the unique bond we share a bond forged in the lecture halls of Integral and amplified across the globe.

As you explore KALEIDOSCOPE '25, I encourage you to see your own reflection in these achievements and to add your voice to this ongoing conversation. Let these stories inspire you to reconnect, collaborate, and pave the way for those who follow.

Together, we are not just observing the pattern; we are actively shaping it. Here's to the light we continue to catch and the future we build, together.

Warm regards,

Dr. Salman Khan
President
AWAIU, Integral University

Vice-President AWAIU

It gives me immense pleasure to extend my warm greetings to all our esteemed alumni through this year's edition of KALEIDOSCOPE-25, the Annual Alumni Magazine of Integral University.

Our alumni are the true ambassadors of the University, carrying its values, vision, and spirit into diverse professional and social spheres across the globe. Each success story is a reflection of the strength of our Integral family, and it is heartening to see our graduates excel and contribute meaningfully to society.

The Alumni Welfare Association of Integral University (AWAIU) continues to remain committed to strengthening the bond between the University and its alumni. Initiatives like this magazine serve as a vibrant platform to showcase your achievements, experiences, and contributions while also keeping you connected with your alma mater.

I take this opportunity to invite all alumni to actively participate in AWAIU's initiatives, share their journeys, and contribute to building a stronger, engaged, and supportive alumni network. Together, we can inspire the next generation of students and uphold the legacy of Integral University.

I convey my heartfelt best wishes for the continued success, growth, and happiness of our alumni community. May KALEIDOSCOPE-25 serve as a true reflection of our collective pride and aspirations.

Warm regards,

Vision

The Alumni Welfare Association (AWA) of Integral University will be a fountainhead of excellence and commitment. The association aspires to accentuate the bonds of solidarity that connect the alumni with their alma mater. AWA will be a radiant star that illuminates the lives that comes in touch with it by means of its philanthropic endeavors, technical vigor and resourcefulness.

Mission

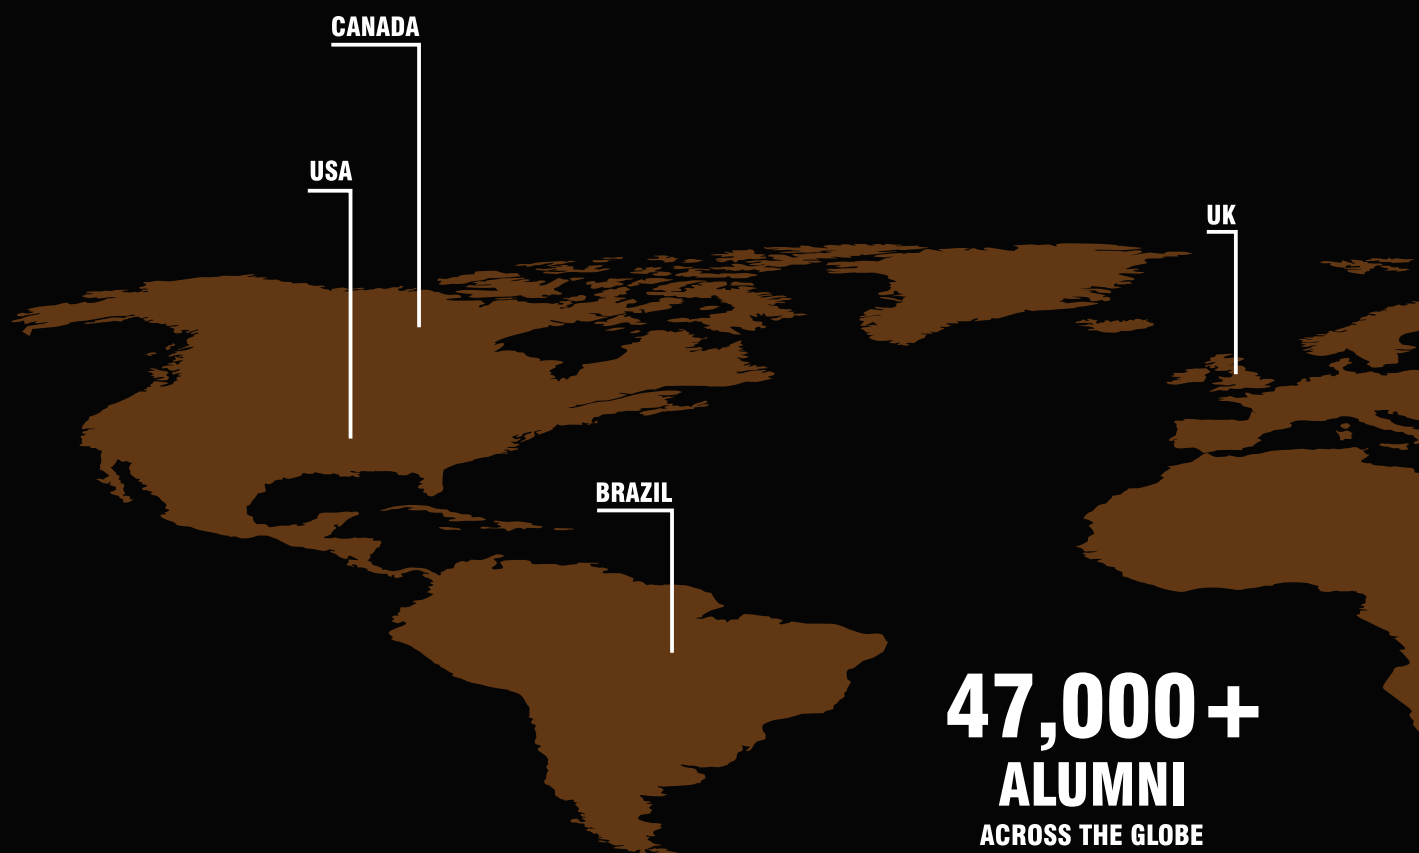

The Mission of Alumni Welfare Association of Integral University shall be:

- To engineer a flourishing rostrum that fosters interaction among alumni.
- To assist the alumni to accomplish their professional and societal objectives.
- To cultivate the philanthropic zeal.
- To contribute to the university's vision of "Going Global".
- To function as a benevolent association.
- To foster ethics and prudent approach in the sphere of Science, Technology, Humanities and Social Sciences for social progress.
- To spread awareness about the university and its alumni in the public.
- To support the deserving students from various stratas of the society particularly the economically challenged section.

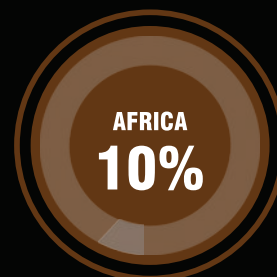

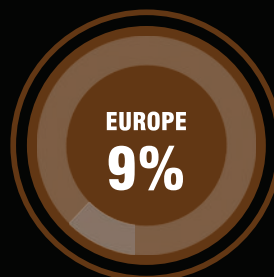

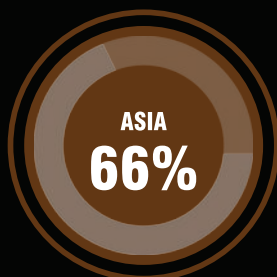

ASSOCIATION

Integral University Alumni Association, formally founded in 2006, is a thriving and growing group of alumni working towards nurturing a lifelong relationship between alumni and their alma-mater. The association facilitates ways and means of getting connected with the university, fellow friends and alumni. The AWAIU invites all the alumni to participate and explore the opportunities available right from on campus events, to meetings in your own cities, to E-networking, and to volunteering in the Association activities.

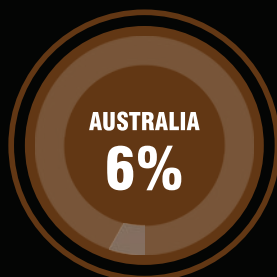

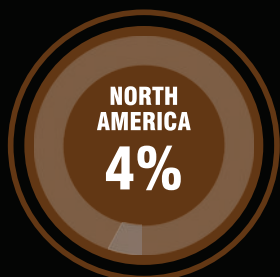

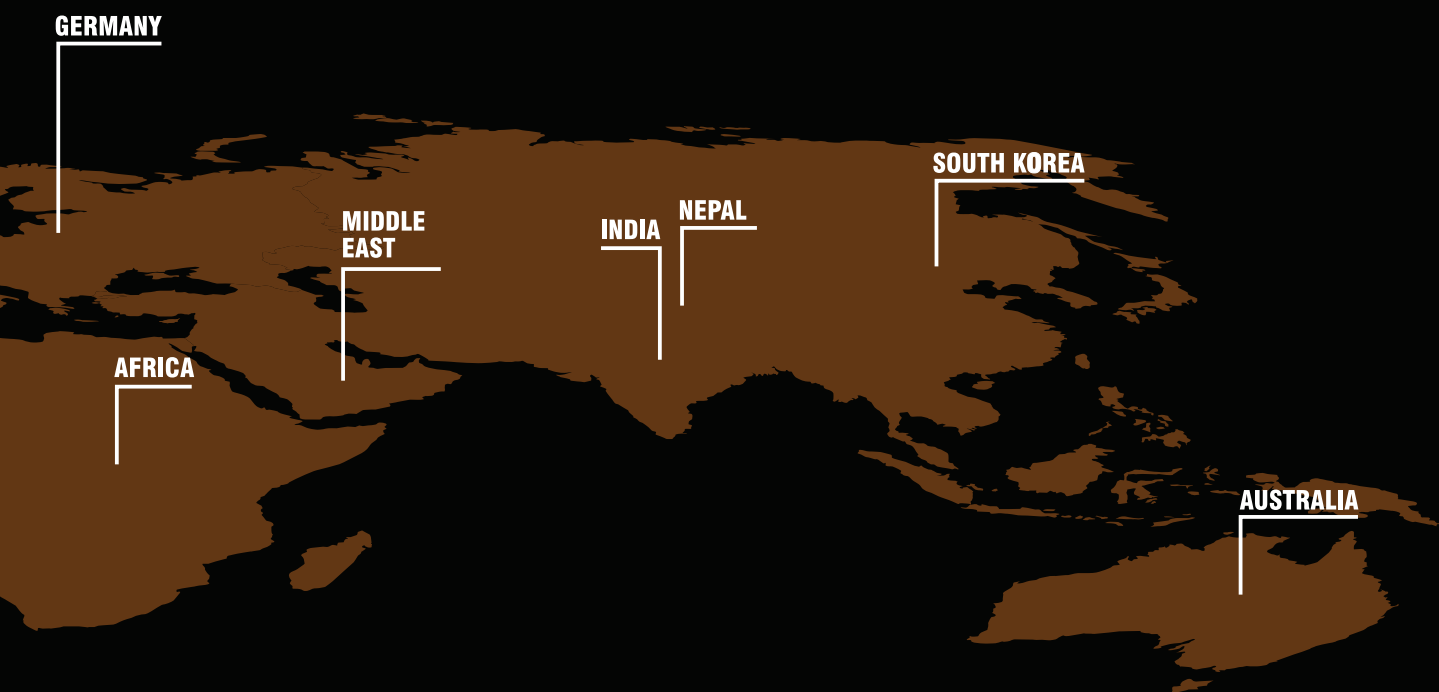

47,000+
ALUMNI
ACROSS THE GLOBE

CHAPTERS

OUR OBJECTIVES

- To promote the general objectives of Integral university.
- To rejuvenate friendships made at Integral university and to provide opportunity for social interactions among graduates.
- Provide a link between former students of Integral university and their alma mater.
- Provide interest in the university activities among the graduates and others.
- To provide a rostrum through which the alumni of the university can interact on academic and other issues.

Riyadh

Reunion 2025

Celebrating Our Global Family

A heartfelt thank you to our incredible Riyadh Chapter for a magnificent Alumni Reunion on October 11, 2025! Your dedication and hard work created a beautiful evening where laughter and memories flowed freely, powerfully reaffirming the unity of our community.

The event was graced by the esteemed presence of our Hon'ble Chancellor, Prof. S. W. Akhtar, and Hon'ble Addl. Pro-Chancellor, Mr. Syed Mohd. Fauzan Akhtar, whose participation added great significance to the celebrations.

To every alumnus in Riyadh who attended, your vibrant energy and commitment are the cornerstones of our growing global network. Together, we are not just reminiscing about the past; we are actively building the future of our Integral family.

Qatar Chapter

- Celebrating a Memorable Victory over AMU Alumni Association (11 Nov 2024)
- Sharing a Part of Ourselves, For a Better Tomorrow, Blood Donation Campaign (14 Feb 2025)
- Together in Spirit: A Community Iftar Gathering on (17 March 2025)

Bangalore

Alumni Reconnect

A Morning of Memories and Momentum

The warm Bangalore morning of November 10, 2024, was filled with the familiar hum of camaraderie as the alumni chapter gathered at the stylish Iris Cafe. The event, a vibrant tapestry of batches and backgrounds, was set into motion by Mr. Osama Ansari (B.Tech ME, 2016), now a Manager of Business and Strategy for Heavy Electric Vehicles at SUN Mobility.

The success of this gathering underscores the strength and vitality of the alumni network in Bengaluru, proving that a simple morning meet can powerfully reinforce the bonds that last a lifetime.

INSPIRATIONAL & ENGAGING

A Legacy in Action: Alumnus Mr. Vaquas Siddiqui Paves the Way for Class of 2024

An on-campus hiring drive led by our distinguished alumnus, Mr. Vaquas Siddiqui (B.Tech ECE, 2008), Director Sales & VP at Strategic Business Adepts INC., exemplified a powerful partnership between our institute and its graduates. The drive was characterized by a strong commitment to quality and precision in recruitment, reflecting the high standards Mr. Siddiqui upholds in the corporate world.

The initiative witnessed an enthusiastic response, drawing 131 applications from our talented student body. Through a meticulous screening process, his team identified 56 promising candidates, representing a selective shortlisting rate of 42.7%. These candidates then progressed to a series of intensive assessment rounds, designed to evaluate not only technical acumen but also strategic thinking and problem-solving abilities. From the 13 students who attended the final interviews, five exceptional individuals demonstrated the remarkable skill and potential to secure final offers.

This successful engagement does more than just place students; it strengthens the foundational bonds of our alumni network. It underscores the high caliber of talent nurtured at our institution and the invaluable trust our alumni leaders, like Mr. Siddiqui, place in their successors. We extend our heartfelt gratitude to Mr. Siddiqui for his commitment to paving the way for the next generation. We look forward to nurturing this partnership and witnessing the continued success of our students as they embark on their professional journeys.

ALUM GREENS

TREE PLANTATION DRIVE 2025

Date: May 27, 2025 | Time: 11:00 AM | Venue: New Boys Hostel, Integral University

The "Alum Greens" tree plantation drive was successfully conducted as part of our environmental sustainability and alumni engagement initiative. The event witnessed enthusiastic participation from alumni, faculty members, and students who collectively planted saplings of native species around the New Boys Hostel premises.

The two-hour program commenced with systematic plantation activities where alumni-student teams collaborated to ensure proper spacing and planting techniques. A brief training session on sapling care and maintenance was organized by the Alumni Welfare Association of Integral University. The event was graced by Prof. M.A. Khalid, Dean of Students' Welfare, and Dr. Ambrina Sardar Khan, Head of Environmental Science.

The initiative achieved its primary objectives of enhancing campus green cover while strengthening alumni-university bonds through meaningful environmental action. Participants expressed high satisfaction with the event organization and requested similar drives across other campus locations.

The planted saplings represent a living legacy of collaborative environmental stewardship and demonstrate Integral University's commitment to sustainability.

BUILD

This space is a quiet celebration of you—our global alumni family. It's where we come together to share the journeys that began on our familiar campus and have since stretched across the world.

Each story you read here is a testament to the bonds we forged—bonds of friendship, mentorship, and shared purpose that only grow stronger with time. They remind us that no matter where life takes us, we remain connected by a common foundation.

We hope these reflections inspire you, fill you with pride, and perhaps even encourage you to reach out to an old friend. Together, we are not just remembering the past; we are building a legacy of support and inspiration for all who follow.

THE EPISTLES

Civil Engineering is not just about constructing buildings, roads, and bridges—it is about shaping the future of our society. The industry offers diverse opportunities in infrastructure development, project management, transportation, environmental engineering, and sustainable construction.

As future civil engineers, you will play a vital role in designing solutions that improve quality of life, ensure public safety, and promote sustainability. The field demands hard work, creativity, and a commitment to continuous learning, but it rewards you with professional respect, lasting growth, and the pride of creating landmarks that endure for generations.

Stay focused on developing both technical knowledge and practical skills. Keep yourselves updated with modern tools, software, and sustainable practices. Remember, every great engineer begins as a learner—so take this phase seriously and prepare to contribute meaningfully to the industry.

Your journey in civil engineering is more than a career—it is a responsibility to build a better tomorrow.

Best wishes for a bright and impactful future.

Mr. Mohd Quseem Ansari

B.Tech. CE 2014
Assistant Manager – Civil
Larsen and Toubro

As a proud Electrical Engineering graduate from the 2014-2019 batch, I often reflect on how those five transformative years shaped not only my career but also my approach to life's challenges.

The classrooms, labs, and—most importantly—the cooperative faculty members at Integral University provided more than lessons on resistors and equations; they taught me how to think. The discipline of Electrical Engineering instilled in me the ability to deconstruct complex systems, ask critical questions, and build solutions from the ground up.

Since graduating, I have had the privilege of applying these skills to real-world scenarios, from optimizing power systems to developing automation and embedded solutions. The transition from theory to practice was a challenging yet deeply rewarding journey. Each obstacle I overcame served to reaffirm the robust foundation that was laid during my time at the university.

Mr. Waquar Azam Siddique

B.Tech & M.Tech Dual Degree. / EE. 2019
Electrical Estimation Project Engg.
CODE CONTRACTING COMP. LLC

Mr. Shafeequr Rahman
B. Tech. ECE 2022
Systems Engineer
Tata Consultancy Services

My journey from Integral University to Tata Consultancy Services has been both challenging and deeply rewarding. As a Java Developer at TCS, I focus on building enterprise applications, managing databases, and implementing Agile methodologies. This role has not only strengthened my technical foundation but also honed my skills in real-world problem-solving.

What truly excites me today is the rapid evolution of Generative AI and Agentic AI. While Generative AI creates innovative solutions and content, Agentic AI introduces reasoning and autonomy, enabling systems to act and adapt independently. Together, these technologies are poised to redefine the future of critical industries like insurance, healthcare, and education.

To my juniors, I offer this advice: master your fundamentals, nurture your curiosity, and embrace experimentation with emerging technologies. Remember, true innovation is built on a foundation of discipline, collaboration, and a commitment to lifelong learning.

I will always be grateful to Integral University for instilling in me the confidence to dream big. The future belongs to those who continuously learn, adapt, and innovate.

Dr. Sharib Khan
B. Pth. 2010
Chief Physiotherapist
Life Line Physiotherapy Clinic

In 2006, I was fortunate to begin my Bachelor of Physiotherapy (BPT) at Integral University, Lucknow, under the guidance of exceptional faculty members like Dr. Mehdi Hasan, Dr. Shamsi, and Dr. Satyapal, ably led by our Head of Department, Dr. Rashid Sir. Their mentorship laid a strong foundation for my theoretical knowledge and practical skills, shaping my early professional journey.

Beyond the classroom, I actively participated in extracurricular activities including skits, dance, singing, cricket, and volleyball. Our team proudly secured the University Volleyball Championship title for all four years of my degree—an achievement that played a vital role in my personal growth and taught me the values of teamwork and discipline. Those years were a perfect blend of focused learning and joyful experiences.

My clinical internship at Sahara Hospital, Lucknow (now Max Hospital), provided me with invaluable exposure across diverse departments such as Orthopedics, Neurology, Musculoskeletal, Pediatrics, and Cardiopulmonary. This hands-on training was crucial in deepening my clinical understanding and sharpening my practical expertise.

Driven to specialize further, I pursued a Master of Physiotherapy in Sports Medicine from CCS University, Meerut. The strong academic foundation from Integral University prepared me to quickly adapt to various professional healthcare settings. Over the years, I had the privilege of working with esteemed institutions, including Kailash Hospital (Noida), Metro Hospital & Heart Institute (Meerut), Al Mana General Hospitals (Saudi Arabia), and Lotus Medical Center (Dubai).

After gaining rich and diverse experience in India and abroad, I felt a deep calling to serve my own community. In 2019, I established the Life Line Physiotherapy Clinic in my hometown, Shahjahanpur. Today, I am proud to run my own practice, fully committed to enhancing the health, mobility, and quality of life for the people here.

It gives me immense pride to share my journey as an alumnus of Integral University, Lucknow. My years in the Bioengineering program (2011–2015) were truly transformative, providing me not only with strong academic and technical foundations but also with the resilience, adaptability, and confidence to navigate life beyond the campus.

The exposure, mentorship, and vibrant learning environment at Integral University nurtured both my professional and personal growth. The experiences and values I gained during those formative years continue to guide me as I explore opportunities, embrace challenges, and contribute meaningfully in my chosen field. Every milestone I have achieved since graduation is a reflection of the solid foundation, strong academic roots and supportive peer network cultivated during my time at Integral University.

As I continue this journey, I remain deeply connected to my alma mater and hope that my story inspires current students to pursue their dreams with courage, passion, and perseverance.

Mr. Shrish Chandra Pandey

B. Tech. Bioengineering 2015
Senior Research Scientist
Invigorate Biotechnologies

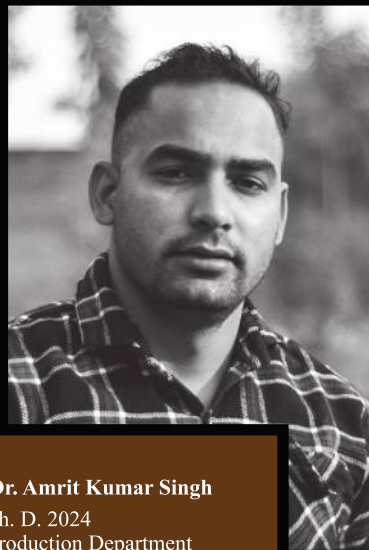

To the future graduates of Integral University- stay curious, because learning truly begins beyond the classroom. Be resilient, as challenges will often shape your greatest strengths. Value integrity and teamwork, for they define who you are more than any title. Strive for excellence rather than just success, and remember that confidence and perseverance will carry you further than talent alone.

I feel deeply honored and proud to be an alumnus of Integral University, Lucknow, where I had the privilege of completing both my Master's and Ph.D. in Agriculture. For me, those years at IUL were not just about academic learning; they were a transformative journey of personal growth, discovery, and cherished memories that continue to inspire me daily.

Today, as I serve in the Seed Production Department at Star Agriseeds Pvt. Ltd., my work keeps me closely connected with farmers, allowing me to contribute to the agricultural sector through quality seed production. It is profoundly rewarding to know that these efforts help improve productivity, uplift farming communities, and touch lives in meaningful ways.

The foundation for this rewarding career was laid at Integral University. The guidance of my teachers, the encouragement of my mentors, and the values instilled in me there have shaped both my professional path and my personal outlook. For that, I will remain forever grateful.

It fills my heart with joy to share my journey through this magazine and to celebrate being part of the ever-growing, ever-inspiring IUL Alumni family.

Dr. Amrit Kumar Singh

Ph. D. 2024

Stat Agriseeds Pvt Ltd.

Ms. Zainab Khan
M. Tech. ACDS 2025
Assistant Professor
Integral University

From Campus to Career: A Journey of Growth

The years spent at Integral University were more than just an academic pursuit—they were the foundation of my personal and professional journey. The campus provided me with knowledge, values, and experiences that shaped my confidence and vision. Every lecture, project, and interaction with faculty contributed not only to my education but also to my character and resilience.

Transitioning from campus to career, I realized the real strength of my Alma Mater. The problem-solving attitude, teamwork, and adaptability I developed here became my greatest assets in the professional world. Challenges that once seemed overwhelming turned into opportunities for learning and growth.

I firmly believe that the true measure of education lies in how well it prepares us to face the uncertainties of life. Integral University has done that for me, and I encourage every student to embrace learning with dedication, for it is the bridge to success and self-discovery.

As alumni, we carry the responsibility of reflecting the values of our Alma Mater in the professional world. I believe the knowledge and principles I gained here will always remain with me. I sincerely wish the current students success in their academic and professional journeys, and I am confident that Integral University will continue to produce leaders, innovators, and changemakers for the future.

Mr. Mohammad Misbah
MCA 2013
Mobile Application Technical Lead
Emcredit Technologies (Empay)

It feels wonderful to connect with you through this message. Being back in the memory lane of Integral University reminds me how special these years are in shaping not just your career but also your personality. Your time here is more than just lectures and exams—it's about discovering yourself, exploring your passions, and building friendships that will stay with you for life.

Challenges will come your way, but don't let them discourage you. Think of them as lessons that make you stronger and wiser. Stay curious, be open to new ideas, and never stop learning. Remember, real growth happens when you step out of your comfort zone and keep moving forward, no matter how small the steps.

Make the most of these years—cherish your teachers, support your peers, and enjoy the journey. Believe in yourself and trust that you are capable of achieving great things.

Wishing you all the best for your future. Keep dreaming, keep working hard, and keep shining.

From a proud Integralite!

Being part of the first batch of Integral University after it attained university status in 2004 was an experience that deeply shaped both my personal and professional journey. Those years were filled with exploration, learning, and countless moments that I look back on with pride and nostalgia.

Academics were always a passion for me. As a dedicated scholar in the B.Tech Computer Science and Engineering program, I loved diving into challenging problems, exploring new technologies, and collaborating with peers on innovative projects. My curiosity often extended beyond the classroom, where I eagerly participated in technical paper presentations and poster competitions, winning several accolades along the way. These experiences not only honed my analytical and research skills but also built my confidence to present ideas clearly and persuasively.

Life at Integral University was never just about studies. I actively engaged in the Fiesta, the annual cultural and technical extravaganza, participating in a wide range of events. The thrill of teamwork, healthy competition, and creativity during these events made my university life vibrant and memorable. From organizing sessions to presenting projects, each experience taught me valuable lessons in leadership, collaboration, and time management.

Looking back, those years were not just about education—they were about growth, discovery, and building a vision for the future. I am thrilled to share my journey and hope it inspires future graduates to embrace challenges with curiosity, determination, and a sense of adventure.

Ms. Mizbah Fatima

B.Tech CSE 2008
HR/ Talent Development &
Student Engagement Officer
Academy of Learning Career College

To all the students currently walking the halls I once did — make the most of every moment. Your time here isn't just about grades or degrees; it's about discovering who you are, building lifelong friendships, and developing the mindset to solve real-world problems.

Stay curious. Ask questions. Learn beyond the syllabus. The challenges you face today are shaping the engineer, innovator, or leader you'll become tomorrow.

Don't underestimate the power of the community around you — your peers, professors, and the environment are all part of your growth. And remember, success isn't a straight line. Keep moving forward, even when it's hard.

Someday, you'll look back and realize how deeply this place shaped your journey — just like it did mine.

Wishing you courage, clarity, and purpose in everything you do.

Ms. Benjeer Usmani

B. Tech. ECE 2016
Chief Strategist and Advisor
Usmani Group of Institutions

Mr. Muhammad Yusuf Siddiqui

B. Tech ME 2023
PGET FEA
L&T

When we step into the world as fresh graduates, we often carry dreams of success — a good job, recognition, and stability. But as life unfolds, we realize that true success is not only about achieving our goals, but about understanding the purpose behind them. A purposeful life gives direction to ambition and turns ordinary work into meaningful contribution.

During my years at Integral University, I learned that education is not limited to books or labs; it is about shaping character, vision, and responsibility. The environment of discipline, faith, and encouragement taught me that every engineer is also a problem-solver for society. That realization became the foundation for how I approached my career and higher studies.

As I moved forward to pursue MTech in Machine Design at Jamia Millia Islamia, and now as a Mechanical Engineer at L&T Technology Services (Vadodara), this idea of purposeful work stayed with me. Each project — whether in robotics, simulation, or sustainable design — became an opportunity to

contribute to something larger than myself. I discovered that purpose is not something we find at once; it grows as we keep learning, evolving, and serving.

For students and young graduates, my humble message is this: dream big, but let your dreams be guided by purpose. Whether you design a new product, research a material, or build a machine — ask yourself how it adds value to society. The future needs engineers who think not only with logic but also with conscience.

As alumni, we are not just representatives of our university — we are its living reflections. Our achievements speak for the values we inherited. Let us, therefore, build a future that is not only intelligent but also inspired — a future that serves humanity, protects nature, and celebrates innovation with purpose.

Dr. Maaz Allah Khan

B.Tech Civil Engineering 2013
Assistant Professor
Babasaheb Bhimrao Ambedkar University

As an alumnus who once sat in the same classrooms you do now, I wanted to share a few thoughts. Your time at Integral is a unique chapter in your life, and I urge you to make the most of it.

Learn Beyond the Syllabus: Your degree is important, but the real learning happens when you engage with your peers, participate in clubs, and take on new challenges. These experiences build character.

The friends you make and the professors who guide you are your first professional network. Nurture these relationships.

You will face tough subjects and stressful deadlines. See these not as obstacles, but as training for the real world. Your resilience is your strength.

The world outside is waiting, and Integral University is preparing you exceptionally well to make your mark on it. Trust the process, work hard, and never lose sight of your dreams.

Wishing you all the very best in your journey.

As an alumna of Integral University, I wanted to take a moment to express my gratitude for the invaluable education and experiences I gained during my time at the university.

Since graduating, I have been working as a researcher at AMU Aligarh and CSIR-IITR Lucknow, where I have been fortunate to apply the knowledge and skills I developed during my master's program. The foundation and confidence I received have been instrumental in my career, and I often reflect on the lessons learned and the relationships built during my studies.

I would love to stay connected and hear about the exciting developments and initiatives happening at Integral University.

To the current students, I would like to congratulate you all. You are in the right place; the university will nurture you, and you will experience holistic growth. All the best for your future endeavors!

Ms. Ishrat Jahan Saifi
M.Sc. Biochemistry 2013
Visiting Researcher
University of Santiago de Compostela
(Spain)

I am proud to be a graduate of Integral University. The knowledge and experiences I gained here have played a pivotal role in shaping both my career and my life. From starting as an intern to advancing to a Senior Associate within just three years, my journey is a true reflection of the strong foundation provided by the university.

I am deeply grateful to Integral University, and to the dedicated teachers and mentors who guided and supported me throughout my educational journey.

After completing my studies, I began my career in Hyderabad as a Green Building Analyst, followed by a role in Noida as a Senior Sustainability Consultant. Today, I am privileged to work in Dubai, United Arab Emirates, with Energy Management Services - Emirates LLC, where I contribute to advancing sustainability in the built environment.

As sustainability is still an emerging field, I believe it holds immense potential for future students. Learning and embracing such disciplines can be truly transformative and game-changing for the generations to come. I would love to interact with my juniors if I ever get a chance to share my experience & some knowledge of sustainable buildings.

Mr. Mohd Hassan
M. Tech. PIE 2022
Senior Associate -
Sustainability Energy Management Services
Emirates LLC

Mr. Sufiyan Mirza
M. Tech. – CTM 2021
Assistant Professor
Glocal University

Being an alumnus of Integral University is a matter of immense pride and gratitude. My M.Tech journey (2019–2021) in Construction Technology and Management provided me with advanced academic insights and strong research foundations that continue to shape my professional path. The supportive faculty, vibrant academic environment, and emphasis on innovation during my time at Integral University played a pivotal role in defining my career as an educator and researcher.

Currently, I am serving as an assistant professor at Glocal University, where I actively contribute to teaching, research, administration, and mentoring young engineers. Alongside, I am pursuing a Ph.D. in Civil Engineering at Graphic Era Deemed University, Dehradun, focusing on sustainable construction materials and recycling of C&D waste. My contributions have been recognized with multiple awards, patents, and publications in reputed forums.

I owe a deep sense of gratitude to Integral University for being the cornerstone of my academic and professional achievements. I am committed to upholding its legacy by promoting innovation, sustainability, and academic excellence in the engineering fraternity, while inspiring the next generation of students to make meaningful contributions to society.

Mr. Abdul Mohamin Alvi
B.Tech Mechanical 2013
Senior Procurement Engineer
Hexa Tech International

It gives me immense pride to write this message for my Alma Mater, Integral University, which has played a pivotal role in shaping both my academic and professional journey. The years I spent at Integral were not only about gaining knowledge but also about building discipline, values, and confidence that continue to guide me in my career and personal life.

With more than 12 years of professional experience in Procurement and Material Management, including key roles in the Oil & Gas and Construction sectors, I can confidently say that the strong foundation provided by Integral University has been instrumental in every achievement I have earned. From handling strategic sourcing and vendor management to achieving cost optimization and earning professional certifications such as CPP and CPPM, I owe much of my growth to the guidance and learning environment that the University instilled in me.

I remain grateful to Integral University for inspiring me to pursue excellence, and I will always carry the pride of being part of its alumni community wherever my journey takes me.

I take this opportunity to express my heartfelt gratitude to my alma mater, Integral University, for shaping my academic journey and personal growth. My years at the university were more than just about acquiring knowledge; they were about building values, confidence, and a vision for the future. The dedicated faculty members, with their constant guidance and encouragement, inspired me to push beyond my limits and explore my true potential. The environment at Integral University fostered not only academic excellence but also discipline, creativity, and teamwork, which continue to guide me in every aspect of my professional and personal life.

The infrastructure, resources, and opportunities provided at Integral University created a platform for me to nurture my skills and develop a sense of responsibility toward society. I am proud to be an alumnus of such a prestigious institution, and I sincerely wish my university continued success, growth, and recognition across the globe. May Integral University keep enlightening minds and shaping futures for generations to come.

Mr. Mohammad Sana
BCA 2013
Cyber security & Firewall specialist
HCL Tech

It is with a profound sense of gratitude and pride that I extend my warmest greetings to my Alma Mater. The years spent within your nurturing walls were not merely about earning a degree; they were a transformative journey that shaped my character, intellect, and aspirations. The very name "Integral" signifies a holistic approach, and true to this ethos, the university provided an environment where academic rigor walked hand-in-hand with personal development.

The dedicated professors did not just impart textbook knowledge; they ignited curiosity, encouraged critical thinking, and instilled in us the confidence to challenge conventions. The state-of-the-art laboratories and libraries were not just buildings but sanctuaries of learning where ideas were born and honed. Beyond the curriculum, the diverse and inclusive campus life taught me the invaluable lessons of teamwork, leadership, and cultural harmony.

The foundation built at Integral University has been my greatest asset, providing the resilience and skills necessary to navigate the professional world. The memories of the lush green campus, the engaging classroom discussions, and the camaraderie with friends remain etched in my heart. I will forever be indebted to this great institution for its integral role in my life. I wish the university continued success in its mission to enlighten minds and build futures.

Mr. Seemab Hussain
B. Tech. ECE 2011
Operation & Sales Manager
USERVE TECHNOLOGY SERVICES
USTS

Mr. Santosh Kumar Patnaik

M. Tech. BT 2009
Manager - India Operations
Labcorp Drug Development

It gives me immense pride to look back on my journey that began at Integral University, where I completed my M.Tech in Biotechnology in 2009. The strong academic foundation and research-oriented environment I experienced at Integral played a pivotal role in shaping my career. The university not only nurtured my scientific curiosity but also instilled in me the values of discipline, perseverance, and lifelong learning.

Over the past 16 years, I have had the privilege of working across leading organizations such as Venus Remedies, Syngene International, and Labcorp, contributing to pharmaceutical R&D, pre-clinical and clinical research, and global project management. Along this path, I also earned my PMP certification, authored scientific publications, and delivered knowledge-sharing sessions at reputed institutions.

I remain deeply grateful to Integral University for being the launchpad of my professional journey. The guidance of my professors and the university's commitment to academic excellence continue to inspire me as I move forward.

Ms. Iffat Zahra Rizvi

B. Tech. Electronics 2005
Senior Power System Engineer
National Energy System Operator
(United Kingdom)

My connection with IU never faded. Its been many years since I passed out but whenever I am in India, I make sure to share my experiences with students at IU, be it a guest lecture, workshop or technical talk, I am always there to motivate the students. The chancellor of IU Prof. Waseem Akhtar sir is an inspiration and he appreciates my efforts of always sharing my knowledge and experiences with the students at IU.

Integral University helped me not only grow as a person but also as a good professional. I am proud to have been a lecturer at IU as well in my early career days. I am proud of my alma mater and thankful to it for all what I have achieved in life.

I will make sure to keep visiting and sharing my knowledge with the upcoming Engineers and other students too at IU. I will be glad if the students at IU get some help from my experiences.

In the end I just want to say- 'Thank you Integral University, all my Professors, Chancellor Sir and everyone who helped me shape my career at IU during my student days.

Integral University has been the foundation of both my academic and personal growth. Having pursued my B.Tech and M.Tech here, I can say with pride that this institution shaped the person I am today. When I first joined, I was a very shy individual, but because of the encouragement of some of my teachers who continuously pushed me to be more outspoken and confident in my work, I gradually discovered my potential.

This is the place where I built lasting friendships, gained invaluable experiences, and developed the confidence and resourcefulness that still guide me today.

I will always remain grateful to my alma mater for helping me grow and for giving me memories and lessons I will cherish for life.

Ms. Mehar Fatima Alvi
M.Tech (Biotech) 2021
Project Manager
Alien Technology Transfer

As a proud 2004 graduate from the Mechanical Engineering department of Integral University, Lucknow, I look back at my journey with immense gratitude and humility. What began as a young student's dream to understand machines and engines has now evolved into leading one of the most challenging and dynamic business verticals—coal mining—for one of the world's largest metal and mining conglomerates, Vedanta Limited.

Integral University wasn't just an institution; it was a launching pad. The lush green campus, supportive faculty, and academically stimulating environment played a pivotal role in shaping my technical acumen and leadership instincts. Mechanical Engineering gave me the tools, but the real value was in the critical thinking, problem-solving, and adaptability that the curriculum and campus life fostered.

I vividly remember late-night study sessions, workshop labs buzzing with creativity, and the thrill of finally cracking complex machine design problems. These formative experiences laid the groundwork for a career that would take me deep into the heart of India's natural resource sector.

If there's one thing the past two decades have taught me, it's this: Success is rarely a straight line. It's a culmination of persistence, continuous learning, and the ability to adapt to change. The mining sector, much like life, is full of uncertainties—from geological surprises to global commodity price swings—but it's also full of opportunities for those who are willing to lead from the front.

Integral University taught me to never stop asking questions, to stay grounded, and to keep pushing boundaries. These values have stayed with me throughout my professional journey.

Mr. Varun Kumar Srivastava
B. Tech. ME 2004
General Manager
(Head Coal Mining Business, BALCO)
Vedanta Limited

Mr. Mohd Arif Khan
B. Pth. 2010
Head Physiotherapy
Med7 Healthcare

It is a profound honour to connect with you as a proud alumnus of Integral University's Bachelor of Physiotherapy (BPTH) batch of 2006. My name is Mohd Arif Khan, and I look back with immense gratitude on the journey that began within those walls.

My time at Integral was a vibrant tapestry of learning and growth. Beyond academics, I cherish leading our Physiotherapy department to four consecutive inter-house volleyball victories and securing 2nd place in the 2006 Annual Fiesta skit. These experiences, shared with dear friends like Sharib and Kamaal, forged lifelong bonds and taught me the power of teamwork.

Our esteemed faculty—Dr. Mahdi Hasan, Dr. Ashfaq, Dr. Abdul Muqeet, and Dr. Rashid Beg—were more than teachers; they were mentors who instilled in us a strong ethical compass and professional confidence. The university's emphasis on holistic development provided an unparalleled launchpad for my career.

After completing my Master's at CCS University, Meerut, I embarked on an international path, beginning at Almana General Hospital in Saudi Arabia alongside my batchmate

Sharib. In 2019, I moved to Dubai, and today, I am privileged to serve as the Head of the Department of Physiotherapy at Med7 Healthcare.

My journey from the lecture halls of Integral to leading a department in Dubai is a testament to the strong foundation, values, and enduring support of my alma mater. I will always carry a piece of Integral in my heart.

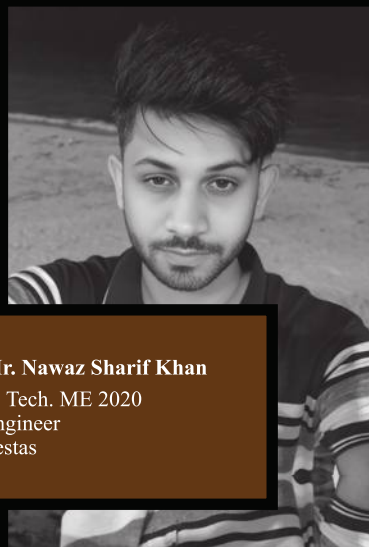

Mr. Tushar Sagar
B.Com(Hons) 2022
Senior Executive
Treebo Hospitality Venture

Studying at Integral University was one of the most formative phases of my life. When I look back, I remember not just the lectures and exams, but the guidance, patience, and motivation offered by our teachers. They were always approachable and ready to help, whether the matter was academic or personal.

What made Integral truly special was the unwavering support provided for placements. From preparatory training sessions to the interview process itself, the institution ensured every student had a fair chance to step into the professional world with confidence. This support gave me the foundation to begin my career on the right note.

Beyond academics, the friendships, experiences, and vibrant campus environment profoundly shaped my personality. These are memories I will always cherish. I am proud to call myself an alumnus of Integral University and extend my best wishes for success to all future students.

It gives me immense pride to write for the Alumni Magazine of my beloved alma mater. Integral University has been more than just a place of education; it has been a guiding force in shaping my values, character, and aspirations. The knowledge I gained within its classrooms, coupled with the encouragement and mentorship of dedicated teachers, continues to inspire me in every step of life. Looking back, I realize that the friendships, experiences, and lessons I gathered here have been the foundation of both my personal and professional journey. The discipline and confidence instilled during those formative years remain my greatest assets. To current students, I would say—cherish every moment here. These years will not only shape your career but also your outlook on life. As alumni, we remain forever grateful and proud torchbearers of this great institution's legacy.

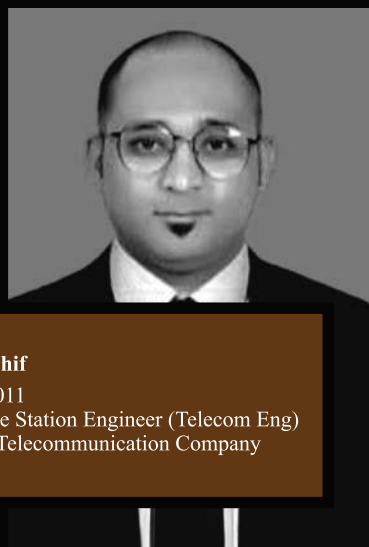

Mr. Nawaz Sharif Khan
B. Tech. ME 2020
Engineer
Vestas

I am filled with immense pride and gratitude as I reflect on the wonderful experiences and opportunities that have shaped my journey. I encourage each of you to embrace every moment, challenge yourselves, and boldly seize the opportunities that come your way. Your hard work, dedication, and passion will undoubtedly pave the path to great success. Remember to support one another and cherish the friendships and connections you make along the way—they are the foundation of a strong and lasting community. To the esteemed faculty and staff, I extend my deepest thanks for your unwavering commitment to nurturing and guiding students. Your dedication to excellence and the profound impact you make on their lives is both inspiring and invaluable.

Mr. Mohd Nauman
MBA 2019
Logistics Co-Ordinator
Qatar Government

Let us work tirelessly to elevate the name of Integral University as a global beacon of learning and excellence. May it stand as a symbol of dedicated teaching, unwavering commitment to student success, and a legacy that begins before a student's journey starts and continues long after it ends.

Mr. Mohd Kashif
B. Tech ECE 2011
LTE & 5 G Base Station Engineer (Telecom Eng)
Global Project Telecommunication Company

Mr. Shah Alam

B. Tech. EE 2007
Sub Divisional Engineer
Bharat Sanchar Nigam Limited

The Institute of Integral Technology was one of the premier institutes in Uttar Pradesh between 2003 and 2007. The guidance provided by the teachers was highly effective and instrumental in shaping the students' futures. In 2004, the institute achieved a significant milestone by being granted university status. Furthermore, the Electrical Engineering lab was notably distinctive, offering facilities that set it apart from any other institute at the time.

Mr. Shaheer Mustafa Hashmi

B. Tech. ECE 2022
Associate Software Engineer
Threecolts

As someone who once sat where you are today, I want you to know that this journey you're on is both challenging and incredibly rewarding. There will be times of doubt, moments when things feel overwhelming, and days when you question if it's all worth it. But believe me, every effort you put in today is shaping the person you'll become tomorrow.

Stay curious. Stay persistent. Never be afraid to ask for help or to take calculated risks. Learn not just for grades, but for growth. You have more potential than you realize.

Trust yourself, stay focused, and keep moving forward. One day, you'll look back with immense pride at how far you've come.

Dr. Mohd Saeed

M.Sc. Microbiology and Ph.D. Microbiology
Professor
University of Hail, Saudi Arabia

I often think back to my time as a student, sitting in your classrooms, dreaming about the future. I could never have imagined then that I would become a professor so far from home. But the foundation you gave me made it all possible.

It wasn't just about the lessons from the books. It was about the teachers who became my guides, who patiently answered my questions and believed in me even when I doubted myself. They taught me not just microbiology, but how to be a good person and a dedicated professional. The friends I made and the memories we shared on campus are treasures I keep close to my heart.

Now, when I stand in front of my own students at the University of Hail, I try to pass on the same kindness and wisdom that was once given to me. Everything I am today, I owe to you. You didn't just give me an education; you gave me a compass for life.

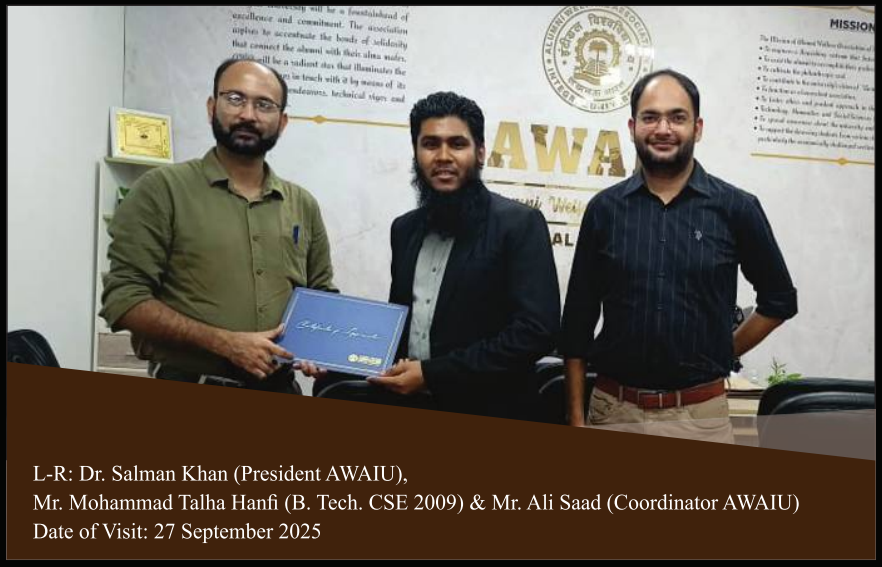

Walk Down Memory Lane

The Alumni Welfare Association of Integral University is delighted to present "Alumni Connect 2025," a heartfelt series of campus visits inviting you to walk down memory lane.

This year, we're creating a space not just for networking, but for reconnection. The program is thoughtfully designed to blend nostalgia with purpose, featuring interactive panel discussions, personal mentoring sessions, and hands-on workshops. It's a chance to reminisce within the halls of your alma mater while sharing the invaluable insights from your journey.

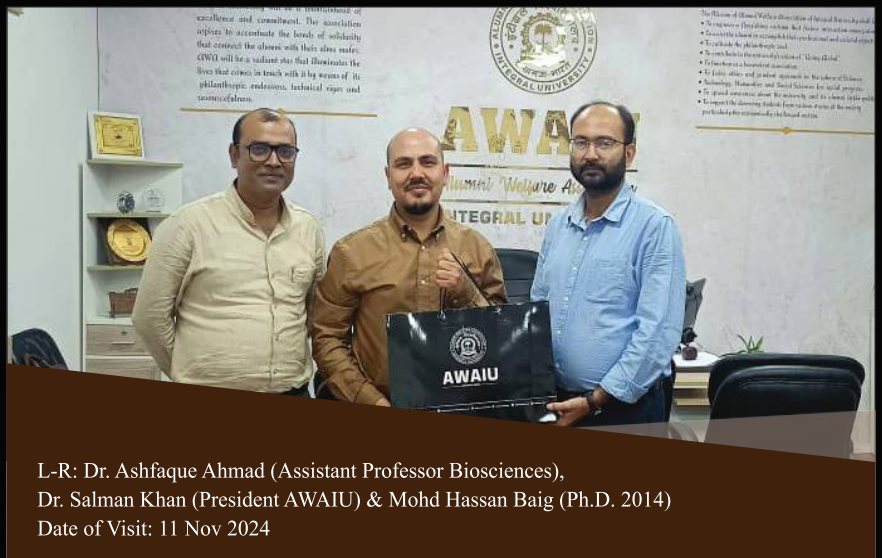

L-R: Mr. Kutubuddeen Ansari (MCA 2019) & Mr. Ali Saad (Coordinator AWAIU)
Date of Visit: 20 Feb 2025

L-R: Dr. Salman Khan (President AWAIU), Mr. Mohammad Talha Hanfi (B. Tech. CSE 2009) & Mr. Ali Saad (Coordinator AWAIU)
Date of Visit: 27 September 2025

L-R: Dr. Salman Khan (President AWAIU) & Ms. Sweta Maurya (M.Sc. BT 2023)
Date of Visit: 29 Oct 2024

L-R: Dr. Ashfaq Ahmad (Assistant Professor Biosciences), Dr. Salman Khan (President AWAIU) & Mohd Hassan Baig (Ph.D. 2014)
Date of Visit: 11 Nov 2024

L-R: Mr. Ali Saad (Coordinator AWAIU),
Mr. Muhammad Yusuf Siddiqui (B. Tech ME 2023) &
Dr. Salman Khan (President AWAIU)
Date of Visit: 06 October 2025

L-R: Mr. Ali Saad (Coordinator AWAIU),
Mr. Faizan Mahmood (Assistant Professor CA) &
Mr. Ashvaghosh Chaubey
Date of Visit: 24 Jan 2025

L-R: Dr. Salman Khan (President AWAIU) &
Mr. Sayyed Ahmad Saeed (B. Tech. IT 2013)
Date of Visit: 15 Apr 2025

L-R: Dr. Salman Khan (President AWAIU),
Mr. Gyanendra Pratap (M.Sc. IC 2008), Dr. Firoz Hassan (Secretary AWAIU),

HIRING ZONE

At Integral University, the Alumni Hiring Zone has blossomed into a dynamic ecosystem of growth and opportunity. More than a recruitment conduit, it is the heart of a virtuous cycle where our alumni return not merely to hire, but to inspire, guide, and co-create the future.

This initiative has evolved into a transformative mentorship journey. Our accomplished graduates now engage deeply, sharing invaluable industry wisdom, opening doors to real-world projects, and personally nurturing the talent that follows in their footsteps. They don't just fill positions; they invest in potential, shaping confident and industry-ready professionals.

The Hiring Zone is the living expression of our core belief: that the highest achievement is lifting others as you climb. It is a vibrant intersection where the wisdom of experience ignites the spark of ambition. Here, within the strong bonds of the Integral family, we are collectively building a legacy of shared success and a brighter tomorrow for every student who walks through our gates.

Mr. Afzal Ahmad

B. Tech. Electronics (2003)
Senior Manager
Airport Authority of India

Faculty

Prof. (Ar.) Zeba Nisar

As I write this message for our beloved KALEIDOSCOPE, I am filled with a profound sense of pride and nostalgia. It feels like only yesterday that many of you were in our studios, passionately working on your theses and projects. Today, you are the architects of change, shaping skylines and communities across the globe.

Your journey from our lecture halls to becoming industry leaders is our most significant achievement. Each of your successes, a groundbreaking design, a sustainable project reaffirms our belief in dedicated education. You are not just our past students; you are our living legacy and most vibrant ambassadors.

In this rapidly evolving field, your experiences are invaluable. I warmly invite you to reconnect with your alma mater, share your stories, mentor current students, or simply visit and inspire us. Let's continue to build this beautiful network of creativity and support. The Faculty of Architecture, Planning, and Design will always be your home.

Dr. Gaurav Bisaria

As I write for KALEIDOSCOPE, I reflect on your journey from our classrooms to the pinnacles of the corporate world. Your success stories in finance, marketing, operations, and entrepreneurship are a testament to the vibrant legacy we build together at Integral University.

In an era defined by digital transformation and global economic shifts, the agility and leadership you demonstrate are more critical than ever. You are not just our graduates; you are the embodiment of our mission and our most valued ambassadors.

I warmly encourage you to reconnect with your alma mater. Your insights can profoundly shape the next generation of business leaders through guest lectures, mentorship, or collaborative projects.

Prof. Salman Akhtar

It is with great pleasure that I connect with you through our alumni magazine, Kaleidoscope. Your journey from the lecture halls and laboratories of Integral University to distinguished roles in biotechnology, healthcare, and research across the globe stands as a continuing source of pride and inspiration for us all. In the evolving landscape of Bioengineering, where computational biology and artificial intelligence are redefining the frontiers of drug discovery and personalized medicine, your professional accomplishments are the living proof of our department's vision: transforming scientific inquiry into innovations that advance human health and well-being. The Department of Bioengineering will always remain your academic anchor. We look forward to celebrating your future achievements and to our continued shared pursuit of excellence.

Articulates

Dr. Swati Sharma

As I sit down to write this, a flood of memories washes over me of your eager faces in the lecture halls, the lively discussions we shared, and the unique energy each of you brought to our campus.

Watching you spread your wings and soar into the world has been the most rewarding chapter of my long career here. You are not just former students; you are the living legacy of this university. Every time I hear of your accomplishments, my heart swells with a pride that only a teacher can understand.

Your old classrooms, the familiar grounds, and teachers like me—we are all here, always cheering you on from these corridors that once witnessed your dreams take shape. Please carry the light of knowledge and kindness wherever you go.

Dr. Mohammad Arifuddin Mallick

Greetings from the Department of Electrical Engineering! As I write this message for our alumni magazine, KALEIDOSCOPE, I am filled with immense pride reflecting on the incredible journeys you have embarked upon since your days at Integral University.

From our classrooms and labs, you have gone on to become leaders and innovators, driving progress in critical fields like renewable energy, smart grids, and electric vehicles. Your professional achievements are a shining testament to the strong foundation we strive to build here, and they serve as a great inspiration for our current students.

The field of electrical engineering is at the heart of solving global energy challenges and building a sustainable future. Your practical experience and industry insights are invaluable treasures. I warmly invite you to reconnect with your department, to share your knowledge through guest lectures, guide our students as mentors, or explore collaborative research.

Dr. Shadab Ahmad Khan

It brings me great joy to see how far you've all gone. Many of you sat in my mathematics classes, and now you are solving real-world problems, leading projects, and building your careers. That journey from our classrooms to your professional success is our proudest achievement.

Your experience is a valuable guide for our current students. If you ever have the time to share your story or offer some advice, it would mean a great deal to them and to me.

Wishing you all the very best.

Reminiscence

Glimpses OF CAMPUS

In Memoriam

In loving and cherished memory of our esteemed alumnus.

We remember a life defined by kindness, purpose, and an unwavering generosity of spirit. Their profound impact has left an indelible mark on our university community and will continue to inspire us.

As we extend our deepest condolences to their family and loved ones, we find comfort in the timeless truth that a great soul never truly dies but brings us together, again and again. They will be deeply missed and forever remembered.
